Public Comment: Un-known Secretary unable to attend to confirm.

Commission Comment: Un-known secretary unable to confirm.

Please note the following: Due to the absences of the secretary these minutes may *or* may not contain comments or items discussed and will only contain which was told to me as secretary.

The zoning administrator presented to this board for input purposes a complaint that was lodged against Interstate Battery business. Which basically contained an old Court ruling and which I believe the complaint states that the Court ruling should stand and the business is not zoned for commercial use. It is also our understanding that Mark Stevens zoning administrator will consult with Township counsel/ attorney on this matter.

The other item discussed was the announcement that Chairman Dave Kohn

and secretary Robert Richards would be stepping down from their positions soon after this year's elections. Which will allow this commission and Supervisor Aaron Kindel time to fill the vacancies

Third and I believe the last item was the application for Mr. Richards to possibly be allowed to have parties non-related or related to occupy the lower level of his residence which is a one bedroom living quarters this may or may not consist of renting. I believe there was numerous discussions on this item and was up to the zoning administrator for the next step.
